

U Don't Know (feat. Wayne Coyne)

Alison Wonderland

Don't lose you better than yourself
Trying to tell me all this faking self
I see what in really is
Honest love will never fades
Give it to me, I can hold my own
I know what it's like to be alone
Don't need to keep me in the dark
Already been, I got that spot

You don't know where it is
Till someone else to own you
Someone else to throw your heart away

Expense living come will never go
Swimming through the deep end, let it show
Live life, don't wait
I know you're fake
All the husband is never enough
Where were you when I was still in town
Leave me a phone, all that I know
What are my soul, know that I'll go
