

# Bottoms Up

## Galactic Pegasus

Can you hear it begging back for more?

Are you thirsty?

Logic hits the floor

Are you thirsty?

Drink as the devil

Vitality is a sin

To which you owe your success

Bottoms up and the devil laughs

Depravity wins again

At the register desk

Bottoms up to the weak willed

Come on

It's time to begin

Where will it end?

And where will it begin again?

You're letting him in

Don't you know what it's like to be this tired now?

Are you tired?

Do you feel replenished as it flows inside of you?

He's inside everything

He's inside everything

Emerald slashes calling out to me

Something inside

It's like a nightmare pulling me

Out of this lie

That has become my real life

Something inside pulling me

Out of this nightmare

Flood the market place with your hell,

Your greed, Your envy

Oh

Don't you know he's here

Donâ€™t you know heâ€™s in everything?

Can you hear it begging back for more?

Are you thirsty?

Logic hits the floor!

Are you thirsty?

Drink as the devil pours

Are you tired?

Do you feel replenished as it flows inside of you?

Heâ€™s inside everything

Heâ€™s inside everything

Emerald slashes calling out to me
