Bless Your Heart

Hamilton Leithauser

our stranger days have come and gone i guess
but me I never ran my hand 'round it
Ii'm farther away
trying to reach you, with all I have
with all I have! with all I have!In dogged changes all round up
no wonder, no wonder
You play a good defense, darling
I'll miss you, with all I have
with all I have, with all I haveA softer light's upon you, darling
you'll wonder, but in the end
I'll always be your man, darling
impress you, with all I have
