

# Life Songs

Rufio

It's been so long and I still see you crying, how long?  
And I wish I could show all the things you've taught me  
So much, oh, too much So please, don't sit and watch the rain fall down  
So get back, get back on track  
Don't leave all that you're used to  
You see, you're waiting for a life through me  
So get back, get back on track  
You're doing all that you wanted Just like father's try, you work hard to help me out on  
But I'm finding out it's the best advice you gave me  
Life songs, oh, our songs So please, don't sit and watch the rain fall down  
So get back, get back on track  
Don't leave all that you're used to  
You see, you're waiting for a life through me  
So get back, get back on track  
You're doing all that you wanted So please, don't sit and watch the rain fall down  
So get back, get back on track  
Don't leave all that you're used to  
You see, you're waiting for a life through me  
So get back, get back on track  
You're doing all that you wanted So get up, get up enough  
You're lying alone in your room
