

# Loveland

## Milky Chance

Take me to Loveland  
and no one's gonna find me  
cause I'm leaving this old place  
right over here Nothing's too far  
I handle that  
oh trust me  
when we're leaving this old place  
right over here She has flowers in her hair  
you have flowers in your mouth  
cause your heart is upside down You get dizzy just off her charisma  
she will love you like a twister  
and you'll be swept away  
and you'll be swept away. And we were so so so so sooo in love.  
And we were so so so so sooo in love.
