I Care (feat. Pomo)

Frances

I'm not gonna give up
Cause I don't wanna let you down
I'll give you all of my love
To everything we dreamt about
Coming from a small town
Everything is big to me
I guess I'm on my way now
But so much left to seeWhat a view
Let's make it come trueEvery time the lights go out and the city sleeps
I'm waiting for
Any little bit of something good something worth fighting for
I don't wanna live regretting thinking I could have been more
Cause I care, I careBeautiful people, happy getting by
Don't they wanna be more
Or are they by the time
And now I see the city lights
Right outside my door
They could never be to bright
I couldn't ask for moreEvery time the lights go out and the city sleeps
I'm waiting for
Any little bit of something good something worth fighting for
I don't wanna live regretting thinking I could have been more
Cause I care, I careI care, I care, I care, I care
