Funderful, Wonderful Friends

Christa Larson

I pledge you my allegiance
Cross my heart, from this day on we will be

Friends always friends, through thick and thin together
One you can always depend upon
Friends always friends, it's you and me forever
Funderful, wonderful friends

We'll share our deepest secrets
Make a vow to never tell because we're

Friends always friends, through thick and thin together
One you can always depend upon
Friends always friends, it's you and me forever
Funderful, wonderful friends

Tuesdays the day we met, Wednesday got soaking wet
Walking to school without our raincoats on
Thursday we had a fight, Friday everything's alright
Now we're eating pizza with my mom

I'll always be there for you
Cause friends in need are friends indeed and we're best

Friends always friends, through thick and thin together
One you can always depend upon
Friends always friends, it's you and me forever
Funderful, wonderful friends
