The Hopefuls

I know a couple who are in love
Living in the best of timesA truer love you will never know
Right next to a pain they'll never realize
Sheltered from it in a loving glow
Young and happy and oh so politically correctJust get it if you need it now
Just go buy it if you need it in your life
Don't you worry if it all runs out
Don't worry because it never willI know a young girl living in the shadow
Of the kind of life that she could never make
She takes it all and gives it back in love
To handsome artists in her native state
She is the Angel of the loser
And the disenchanted soulJust get it if you need it now
Just buy it if it makes you happy
Don't you worry if it all runs out
Don't worry because it never will
Just get it if you need it nowI know a couple who are in love
Living in the best of times
