

# Useless

## Aaron Sprinkle

I think you see me  
The way that you'd like see  
A man that gets nothing doneI think you'd like me to be  
As useless as i seem  
And leave everything undone(chorus)  
But the little boy I used to be  
He had a conscience you could see  
And he held it in his hand  
He did not understand  
That he would soon be meI think you'd like to know  
A place that I won't go  
And spend some timeYou say you need a friend  
To take you by the hand  
And sit awhile(chorus)If you could only feel this  
It's nothing to believe  
I ask an honest question  
I get a silent screamWhen I hear the answer  
It's nothing I could see  
If someone could have warned you  
It takes much more than meBut the little boy I used to be  
He had a conscience you could see  
And he held it in his hand  
He did not understand  
That he would soon be free
