

Stay

Tenth Avenue North

I have run through field and mountain
I have waited for the dawn
Gave you heart and soul and body
For the promise of your love

I will not let the fear take over
I will not heed the sirens song
I have seen miracles break like thunder
So I will wait â€™til the feeling comes

Oh, my love, I will fight my heart to keep you safe here
All my life, I will stay
Stay

Oh, my love, we are a light, a mirror of love eternal
How could I walk away
Stay, stay, stay, stay

We can learn to choose each other
Face to face and hand in hand
Fire dies and tempest crashes
But we wonâ€™t let the darkness in

Oh, love, I will stay here
Oh, love, come take my hand tonight
Can we remember what was revealed in the sunlight
For rich or poor, I wonâ€™t leave your side
We can walk safely together through the battle lines

Oh, love, come take my hand tonight
Can we remember what was revealed in the sunlight
