

What a Wonderful World

Ghoul

I see towers of flame and corpses too
I see the doom of me and you
And I think to myself, what a wonderful world I see skies obscured, I see no light
Dark freezing days, dark sleepless nights
And I think to myself, what a wonderful world The clouds of radiation are so pretty in the sky
Tumors on the faces of the people who survived
I see friends in the past kill each other for food
They're really starving, so will you I see babies die, I watch them decompose
They'll hurt much more than I'll never know
And I think to myself, what a wonderful world
