

# Gravity

## With Confidence

Even when the tour's done I see it in my sleep,  
Even when the wars won, I hear the distant screams.  
Never really want much, know damn well what I need.  
Even when the lights out I keep it here with me. Could have been a tradesman, I'd work from 6 'til 3,  
Follow my father's footsteps, to work and spend and sleep  
But I could have strayed from embracing melody  
Only in the dark times I crave normality.  
(normality) I fight through to see tomorrow,  
Don't get tired, don't beg or borrow,  
I fight through to see tomorrow,  
Held so tight, now watch me let go. Even when the tour's done I see it in my sleep,  
Even when the wars won, I hear the distant screams.  
Never really want much, know damn well what I need.  
Even when the lights out I keep it here with me.  
(here with me) I fight through to see tomorrow,  
Don't get tired, don't beg or borrow,  
I fight through to see tomorrow,  
Held so tight, now watch me let go. I fight through to see tomorrow,  
Don't get tired, don't beg or borrow,  
I fight through to see tomorrow,  
Held so tight, now watch me let go.  
(let go, let go) I fight through to see tomorrow,  
Don't get tired, don't beg or borrow,  
I fight through to see tomorrow,  
Held so tight, now watch me let go. I fight through to see tomorrow,  
Don't get tired, don't beg or borrow,  
I fight through to see tomorrow,  
Held so tight, now watch me let go. Gravity, gravity,  
Everything you wanna see, wanna see.  
Gravity, gravity,  
Everything you wanna see, wanna see.
