

Walls Are Coming Down

Deitrick Haddon

Spanish

Verse I

This is my time

Man I can feel it

I smile at my haters

I refuse to let em steal it

But oh its too late to cost

Now I can see it

Heading for the promise land

I decree it

There was a whole lot of weak walls built

But I was on the prowl

But now Im standing tall

These walls are coming downChorus

I bind everything that's not like God in my life now

These walls are coming down

These walls are coming down

Cast out every foul place standing in my way

These walls are coming down

These walls are coming downVerse II

You're looking at a man ain't got nothing to prove naw

You're looking at a man ain't got nothing to lose naw

And now that my pride has been pushed aside

Its time to be about the Father's business

Lets go and touch some lives

And I ain't going back now

To the way I used to be

You might as well get out of my way

I have been set freeChorus

I bind everything that's not like God in my life now

These walls are coming down

These walls are coming down

Cast out every foul thing that stays in my way

These walls are coming down

These walls are coming down

I bind everything that's not like God in my life now

These walls are coming down

These walls are coming down

Cast out every foul thing that stays in my way

These walls are coming down
These walls are coming down
