

# Love Help Me (Instrumental Version)

## Deep Purple

Vibrant flashes in my mind  
Remind me of a foregone time  
The blackened faces, broken romance  
Blackened facesMy broken heart has bled  
With memories of a love that's dead  
Sometimes happy then sad  
I need love, love help mePassing by the grounds of time  
Memories that are only mine  
Looking for love, a brand new love  
Looking for loveDreams that are hard to see  
Finding a new love for me  
Someday she must come along  
I need love, love help meI need love to come home  
Somewhere there must be oneHoping someday for good news  
Waiting for that girl to choose  
Only hoping, all I can do  
Only hopingOne day she must come along  
A girl as pretty as a song  
A woman just meant for me  
I need love, love help meVibrant flashes in my mind  
Remind me of a foregone time  
The blackened faces, broken romance  
Blackened facesMy broken heart has bled  
With memories of a love that's dead  
Sometimes happy then sad  
I need love, love help meI need love, love help me
