

# Do Right

## Baby Woodrose

What have I missed living like this?  
Who'd think I'd get this far, fancy house and my fancy car  
While you're living like this? Together as kids  
You were my best of friend, all the trouble you got up in  
See I've been there and I've been scared  
I been discriminated against and compared  
To you who's my brother, thanks to you I discovered  
There's only one way to go in life and that's be right  
There's only one way to do right, right, right, right  
There's only one way to do right, right, right, right  
See me, I ain't always done right, right, right, right  
That's why I'm here to help you fight, fight to do right  
You were the queen in my future, I was the one you was used to  
It was like we were one up under the sun  
Then narcotics in your system, the love I should have I missed it  
Now look what we've become, but I shouldn't judge  
See I been there and I've been scared  
I've been discriminated against and compared  
To you who's my mother, now through you I discovered  
There's only one way to go through life and that's be right  
There's only one way to do right, right, right, right  
There's only one way to do right, right, right, right  
See me, I ain't always done right, right, right, right  
That's why I'm here to help you fight, fight to do right  
'Cause in life there are decisions to make but it's your choice  
But I chose to walk away rather than wildin' out and get locked away  
See my friends all chose the fast money but I chose my voice  
'Cause I knew He'd come for me and would cover me on rainy days  
See what I'm trying to say is that I'm trying to be the best man I could be  
And wanna see you to struggle to do the best you can do  
You may run into a block but you can't let it stop what's planned for you  
So make the right choice  
There's only one way to do right, right, right, right  
There's only one way to do right, right, right, right  
See me, I ain't always done right, right, right, right  
That's why I'm here to help you fight, fight to do right  
There's only one way to do right, right, right, right  
There's only one way to do right, right, right, right  
See me, I ain't always done right, right, right, right

That's why I'm here to help you fight, fight to do right
