

Moon On My Shoulder

[Lyle Lovett](#)

With the moon on my shoulder
And you on my mind
I will lay down
I will lay down
With the moon on my shoulder
And you on my mind And I miss you more than I ever did
Lord ever did
They said that time would take care of it
Take care of it
I wish time would take care of me With the moon on my shoulder
And you on my mind
I will lay down
I will lay down
With the moon on my shoulder
And you on my mind With the moon on my shoulder
And you on my mind
I will lay down
I will lay down
With the moon on my shoulder
And you on my mind
