Cross Over Attack

Emmure

You will be saved.
Don't let the system bring you down.
Just walk away. (Just walk away)
Start over now.
Your partner will assist you.

You best believe we're crossing over.
I'll stand by your side.

Press start to continue.
This game isn't over.
Press start to continue
This game isn't over.
I've got a lot to prove.

If I'm player one.
Then you're player two.
I've got a lot to prove

Don't let the system bring you down.
Just walk away. (Just walk away)
Start over now.

Don't let the system bring you down.
Just walk away. (Just walk away)
Start over now.

Just me and you against the world. (Just me and you against the world)
You best believe we're crossing over.
I'll stand by your side.

I'll stand by your side!

Just walk away.
Your partner will assist you.

Don't let the system bring you down.
Just walk away. (Just walk away)
Start over now.

Don't let the system bring you down.
Just walk away. (Just walk away)
Start over now.

Right now, I need your help.
Please say you'll assist me.

Just me and you against the world. (Just me and you against the world)
You best believe we're crossing over.
I'll stand by your side.
