

# The Glitzy Hive

## Neon Indian

[Chorus]

Party, she's at the monster party

Party, party

Party, she's at the monster party

Party, party[Verse One]

Little girl flipping through your phone

Where you at this time of night? Asking for a couple dozen on loan

Say your friends are waiting by Never self-described a jealous type

Always keep the status quo But you could be all dressed up in someone else's love

Oh say it isn't so[Chorus]

Party, she's at the monster party

Party, party

Party, she's at the monster party

Party, party[Verse Two]

Breezy shoots with quasi famous freaks

You say you're only taking five I don't know what you see in those creeps

You know you never leave the glitzy hive I can't argue with security

Looking for some perch to climb But your sister told you that's no place to be

Girl, you're only wasting time, wasting time, uh[Chorus]

Party, she's at the monster party

Party, party

Party, she's at the monster party

Party, party[Instrumental Break][Chorus]

Party, she's at the monster party

Party, party

Party, she's at the monster party

Party, party Tell me, oh won't you tell me

I've been blind this whole time
