

We Stand United

Army of Lovers

We stand united
Our fans are invited
We stand united
I feel so excited Behind every wheel
Heroes of steel
We know where to and how Together we stand
We make our demands
Ain't no stopping us now And in the business hour
Lost in material dreams
Building a golden tower
Reigning a love supreme We stand united
Our fans are invited
We stand united
I feel so excited We started a boom
Now you consume
We shop therefore we are Gold bars are a must
In money we trust
Multinational stars And in the business hour
Lost in material dreams
Building a golden tower
Reigning a love supreme We stand united
Our fans are invited
We stand united
I feel so excited Demandant, demandant
De la argent, de la argent
Demandant, demandant
De la argent, de la argent And in the business hour
Lost in material dreams
Building a golden tower
Reigning a love supreme We stand united
Our fans are invited
We stand united
I feel so excited We stand united
Our fans are invited
We stand united
I feel so excited We stand united
Our fans are invited
We stand united
I feel so excited We stand united
