

# Legacy of Hate

## Fight

Raised by you, you made me  
In your shadow, angryLike father, like son  
Like father, like sonMirror of your image  
Victim of your damageLike father, like son  
Like father, like sonYou gave me nothing  
Like father  
But these memories are full  
Like sonIs the back of your hand  
Like father  
All that I'll pass on?  
Like sonHere's what you've created  
Shattered, cracked and wastedLike father  
I want to know why  
Like sonLike father  
The ways that you treat me  
Like sonLike father  
Eats away at your soul  
Like son  
And what's left is your conscienceLike father  
That's a cancerous hole  
Like sonI want to know why?  
What have I done?  
Were you a victim?  
The cycle goes on
