Salt and Light

Fire Engine Red

You can see my light I'm the city on the hill
can you see my light at night
You can see my light I'm the city on the hill
Yeah,(I am salt and light) x 2Well I was your friend was your friend till the end
but we're only friends anymore
A lie can't live in the presence of the truth
NO !
(I am salt and light) x 2All in God's time he takes his good old time
No man I'm not lying
I will pray for you my brotherAll in God's time he takes his good old time
No man I'm not lying
I will pray for you my brother
cause (I am salt and light) x 2Can you see my light I'm the city on the hill
can you see my light at night
the one thing I hope and pray is that
(I am salt and light) x 2All in God's time he takes his good old time
No man I'm not lying
I will pray for you my brotherGod will choose the time to convict you of your crime
No man I'm not lying
I will pray for you my brother
cause (I am salt and light) x 2
