

I Promise You

Samantha Fox

You never touch anything till it touches you

And oh when you touch me

I feel beautiful for you So hold me tight tell me you'll never leave my side

Stay loving me boy - loving you boy all the time Hey! I promise you I'd take you away - get ready! get ready!

I'd promise you I'd take you away - get ready! get ready! Your lips, your breath, you give me the softest caress

And oh when you kiss me

I'd do anything for you (for you) So hold me tight, tell me you'll never leave my side

Stay loving me boy - loving you boy all the time Now I, I've seen you laughing

Now I, I've seen you laughing Hey! Your eyes, it's something in your eyes
