

# Music Saved My Life (Feat. B.o.B & Mally Stakz)

Joell Ortiz

Early when I knew I was defend  
Hold the ice cream truck beyond my mamas hand  
So wanna turn it up in the dollar van  
No one walk better in pajamas pants  
I use once to tran a track like graning behind  
Lean on me, worth it all I knew every line  
My moms blessing , I needed a baker  
No one that I could take em with a piece of paper  
Yeah looking back daddy left  
On the school yeah music was my escape  
I was raise by Stevie Wanda  
Line with Rich and all his brothers  
Use to close my eyes and see far away  
On the harder days I was chopping up with Marvin Gate  
It was just a manner of time  
I took a crime and aSo when I felt I do wrong you help me getting right  
So when I felt Im giving up  
You get me one more try  
And when I felt that it was over  
You didnt let me die  
No, you didnt let me die  
Music saved my lifeSo many different artist I can see now  
Still Im on with the pie til Im all drunk  
Imma have all noise on the street where we are from  
Rest in peace butRap away catch all against the rap  
I grow up in a when there was no  
It was the world that I was always angry at a maniac  
Full of rage with nowhere to aim at that  
Came up in the hood but everybody was there get the best they could  
I do my best to pay em back  
Im paying back boy let me pay you back  
With no fashion just get brush and fade it all  
If you could do it more better you rock it huge in the sweater  
All we knew is the hustle, we never know no better  
Getting calm is the fraze every one working til late  
We thought it was forever how knew it was just a faze  
was it and never could it let teaching  
This a miracle I can call in the streets man  
If it wasnt for hip hip I wouldnt breathingSo when I felt I do wrong you help me getting right

So when I felt Im giving up  
You get me one more try  
And when I felt that it was over  
You didnt let me die  
No, you didnt let me die  
Music saved my life  
So many different artist I can see now  
Still Im on with the pie til Im all drunk  
Imma have all noise on the street where we are from  
Rest in peace but Somebody pinch me, this cant be life  
All these big camera and fancy life  
Man this must be a mistake  
Just yesterday my mama cut the cake  
On my ten birthday she tell me to make a wish  
Here I am now surrending by all of this  
Man what a crazy life music  
You really save my life So when I felt I do wrong you help me getting right  
So when I felt Im giving up  
You get me one more try  
And when I felt that it was over  
You didnt let me die  
No, you didnt let me die  
Music saved my life  
So many different artist I can see now  
Still Im on with the pie til Im all drunk  
Imma have all noise on the street where we are from  
Rest in peace but
