About Life

Julianne Hough

Ever since I was a little girl
You couldn't dare tell me a thing
I was as stubborn as they come
I was such a drama queen
Thought I was right and I could do no wrongSome could've been a few dead ends
Some bumps along the way
Some never should've been boyfriends
That ended in heartache
But I still try to see the brighter sideWhat goes up don't always come back down
What goes around don't always come aroundI've been down on my knees just a beggin' the Lord
The Devil's been knocking at my door
I've been in the dark but I've always found the lightOh, I've been up and down this road before
I keep on coming back for more
And I still haven't figured a dang thing out about life
Ooh, about lifeI've lived and learned and I've been burned
But it's all apart of me
I've got bars around my heart but I still believe
There's someone out there with the keyBut I still dream and I won't give up the fight
And who knows if I'll ever get it rightDown on my knees just a beggin' the Lord
The Devil's been knocking at my door
I've been in the dark but I've always found the lightOh, I've been up and down this road before
I keep on coming back for more
And I still haven't figured a dang thing out about life
OohWhat goes up don't always come back down
What goes around don't always come around
I'm gonna keep on keepin' onI've been down on my knees just a beggin' the Lord
The Devil's been knocking at my door
I've been in the dark but I've always found the lightOh no, I've been up and down this road before
I keep on coming back for more
And I still haven't figured a dang thing out about life
And I still haven't figured a dang thing out about life
Ooh, about life
