

My Superman

[Santigold](#)

Well you're a liar and
Your cues are all wrong
But I can't count all the ways you woo me
I watch you capture
What I can't hold
Now make it make some sense to me

You are
You are my [Repeat x3]
Superman

Make it fly
Bless your soul
You get by
Take me along
But all the static here it's breaking you a-part
You can't stay the way you, you, you, you

You are
You are my [Repeat x3]
Superman
