

Lay Down for Love

Gary Barlow

I was alone with you on my mind
Look at me now you've left me behind
You're all that matters you are my life
You are the one that should be here by my side
You are my lover you should be my friend
Don't you think we've got some talking to do?
Only love depends on you Don't tell me it's over cause it's not over yet
Don't tell me you love me
When you're trying to throw this love away
Don't say that I've changed girl
Because change is not enough
Don't say that it's over
When you know that we can fight it
You know we've got to lay down for love
We've got to lay down for love So where is your kiss where is your touch
The taste of your lips I miss them so much
You said you'd be back soon you said you'd be here
You seem to run everytime love comes near
Remember when we were lovers
Remember when we were friends
Don't you think we've got some talking to do?
In the end it's up to you No
When you're trying to throw this love away
Don't you say
Ohh
Don't tell me it's over
When you know that we can fight it
You know we've got to lay down for love Lay down for me
Lay down for you
Lay down for everything you do
Cause you know it's rush you know it's time
To love me for the rest of your life
When you got good love
It ain't right To please me
I want you baby
Don't throw this love away
