

Into Me You See

[Katy Perry](#)

I built a wall so high, no one could reach
A life of lux, I swallowed up the keys
I was petrified, only knew how to hide
They can't hurt me if they don't know me
I fell at first sight, made a mirage outta me
Then you came and started digging for a treasure underneath
And you found a better version of me I had never seen
Into me, you see
You broke me wide open, open sesame
Into me, you'll see
Into me, you'll see
You bend me wide open, now I'm ready
Is this intimacy? I was a ship floating aimlessly
So camouflage was my own worst enemy
But then you came in like a sailor with a heart that anchored me
And every day I wake up grateful I'm no longer lost at sea
Into me, you see
You broke me wide open, open sesame
Into me, you'll see
Into me, you'll see
You got me wide open, now I'm ready
Is this intimacy? Oh, 'cause no one's ever seen me like this
Seen right through their bullshit
I pray that it can keep unfolding
Pray that I just can stay open, just stay open
Just stay open, just stay open
Oh, 'cause you broke me wide open, open sesame
Into me, you'll see
Into me, you'll see
You got me wide open, now I'm ready
This is intimacy
