Azonto

Chart Stormers

Nobody wanna see you rising
and when they do it they
don't like it
they just wanna see you deep in crises

drive your self you don't
need a license

holla hush she can even ride it
go ahead move your feet just
like this
then he showed me the latest
we want go make them hate
us
now watch me do my
Azonto, Azonto, Azonto,
now watch me do my
Azonto, Azonto, Azonto,

Azonto dance is the movement
so when you jump on the floor

better use it

First step is the step-step
you can move to the right
to the left-left
you can even freestyle
when you step-step
put your hands in the air
then you rep-rep
so go go go

twist your fingers you can
wave and say hello lo lo
make your fist and you
can hit them with the blow, blow, blow

no balance thats how
you do azon-zon-to
let me see you go go
Killbeatz taught me this

Nobody wanna see you rising
and when they do it they
don't like it
they just wanna see you deep in crises

drive your self you don't
need a license

holla hush she can even ride it
go ahead move your feet just
like this
then he showed me the latest
we want go make them hate
