

Feed Them, Kill Them, Skin Them

[Nasum](#)

Take them for what they are
Treat them with love and respect
Their skin so desirable, so much money to make
Life will turn to profit and you don't fucking care
Feed them, kill them, skin them
Their lives ain't worth shit
I just can't take it no more
Won't let you do this to them
I just can't stand this no more
Won't let you do it anymore
