

# So Lonely

## Chris Leo's Vague Angels

[Mackenzie O'Guin]{Chorus}

So lonely(x8)

Yea when I came up I was famous and I stayed up  
Now I'm way up people they just turn their hate up  
[Tech N9ne]Been alone ever since i started to be an artist  
I've been disregarded and i mean the hardest ever seen  
I put em in the garbage to be departed when i spit this  
Man he is wicked face comin up just like Stanly Ipkiss  
But damn he is lifted where no familys listed  
Plan to revisit that big planet he misses  
But the land that he shifted twisted a bit cause man he resisted  
To jam what he scripted calamity insanity with it  
Like amedy pictures sickness hit banashed hes livid  
So blow me witta bucket of hot phesis poured on me  
Neva loved it now yall just be so phony  
No homies woulda neva let bozeos with so so flows on me  
When i said that it gets better its just bologna  
Thats why NINA so lonely

[Mackenzie O'Guin]Chorus

[Tech N9ne]This my planet higher than yalls damnit  
No laws and its raw candidates i made em all vanish  
Vandalistic with this if man get his lips in this  
Q uick damagin rip the bitch no bandages that fits he draws panic  
From clones i spit it up and then they gone im livin up within my zone

No body left to win my throne try callin home but everybody is so monotone  
Your gettin this why tech is all alone  
[Blind Fury]Its so lonely up here aint non of my homies up here  
Cause they feel like i chose a career over my peers  
But i try ta tell em love dont pay bills  
Of me spittin these freezin free writtin jus probably bust dont make mills  
Tryna stay chill when alotta rappers lust and chase thrills  
Fuck the fame and the thrills im maintaining it real  
Straight up Fury aint no jury minus the change in thrill to me  
You a lame if you aint been embracing the skill you see  
Cause ive been in it for a minute and i aint gon go away  
Yall keep them trash rappers but im the one yall throw away  
The songs i make show the pain but this game aint too friendly  
I cant take it no moe so sing it mackenzie and tell em why im..

[Mackenzie O'Guin]Chorus

Got everything that I wanted but it came witta price  
Bought me a crib with my money but I gave it my life  
Sometimes I stay up kinda late and I hate it at night  
Every other day me and my lady we break up and fight

Thinkin you bringin that mentality into my galaxy is falsie for anybody to battle me  
Realizing all I got is friends and family and after that aint no body to look after me so im proud to be

[Mackenzie O'Guin]Chorus
