Dejected

Deadstar Assembly

You swept me under the bed
Now the ugliness rears it's head unshed
This darkening I'm over it
You've made me what I am today
Disgust is what you've raised unsaid
My awakening is far from deadSo I'm not like you
No I'm not like you
Dejected for most of my life
So I'm not like you
No I'm not like you
So I'm crucifiedI'm losing my faith
I'm hurting to feel
I'm searching and there's no one else here
If learning to hate is learning to feel
This life is so unreal
Abusing me again
Dejected rejectedA bad seed an utter degenerate
Stained with your neglect unfed
The blackest sheep irrelevant
You made the stigma I enslave
Disgust in what youve raised unsaid
My awakening is far from deadSo I'm not like you
No I'm not like you
Dejected for most of my life
So I'm not like you
No I'm not like you
So I'm crucifiedI'm losing my faith
I'm hurting to feel
I'm searching and there's no one else here
If learning to hate is learning to feel
This life is so unreal
Abusing me again
Abusing me againI'm losing my faith
I'm hurting to feel
I'm searching and there's no one else here
If learning to hate is learning to feel
This life is so unreal
Abusing me again
Abusing me again

Abusing me again
This life is so unreal
Dejected rejected
