

Watch Me Go

Go Fish

I've waited all of my life
Here I am
I can hardly wait
To live out the plan
That You have for me
I am ready to ride
I gladly wave good-bye
And I'm gone, And I'm gone I wanna breathe the air tonight
In a different place
I wanna see You move
In a whole new way
Where will You take me?
Only You know
Point me to Your will
And watch me go I'm ready to risk
Tryin' somethin' new
People look at me
Like I've missed my cue
I guess that's why say
The chosen are few
I want to follow You
It's time to move on, time to move on I wanna breathe the air tonight
In a different place
I wanna see You move
In a whole new way
Where will You take me?
Only You know
Point me to Your will
And watch me go
