

On Top

Hoops

Don't it feel like every evening
Something new to cloud your mind
Keeps you staring at the ceiling
Keeps your heart from feeling right Keep your head up, you're doing fine
I know it's hard, but you'll be alright
Don't think twice when it all goes wrong
But in time you'll come out on top Well it feels like every morning
When you're trying to start the day
Something comes to bum you out
Keeps your mind from thinking straight
Keep your head up, you're doing fine
I know it's hard, but you'll be alright
Don't think twice when it all goes wrong
But in time you'll come out on top Well I think I'll take it easy
Take it one day at a time
And I wait for you to find me
In my foolish paradise
Keep your head up, you're doing fine
I know it's hard, but you'll be alright
Don't think twice when it all goes wrong
But in time you'll come out on top
