

# Landline (feat. Ingrid Michaelson)

[Greg Laswell](#)

I think the tree may fall in the front yard  
if this storm has it's way  
I hear you dancing on the floorboards above  
unaware of what's at stake  
All I ever needed was a landline  
just in case the power lines go down  
All I needed would never be enough for me

I think the storm may take the screen door  
if the wind gets it's way  
I hear you singing on the floor just below  
unaware of what's at stake  
All I ever needed was a landline  
just in case the power lines go down  
All I needed would never be enough for me

All I ever needed was a landline  
just in case the power lines go down  
All I needed would never be enough for me  
All I ever needed was a landline  
just in case the power lines go down  
All I needed would never be enough for me

All I needed would never be enough for me  
All I needed would never be enough for me  
All I needed would...  
All I needed would never be enough for me  
All I needed would never be enough for me
