

Some Girls (Dance With Women)

JC Chasez

The door is coming off the hinges
I'm 'bout to pass out, no doubt it's hot in here
Because the club is full of women
It's wall to wall and I got my crew with me We grab a table spot to chill in
Hunt down a waitress, make an order, here we go
Throw back a drink and let it kick in
It takes a minute, who's ready to have some fun? Get up and take a lap and mingle
Love being single on a night like this, yeah
So many beautiful young people
That game is lethal, you don't have to kill 'em though Just look at everyone as equal
While you were dancin' she was watchin', feeling you
Her and her girlfriends by the speaker
All moving on each other, this is when the show begins Baby girl, you keep lookin' at me, move your body, so
sexy
Nice and slow, watch you roll, you know how I like it
Baby girl, 'cause you know you got me, move your body, so sexy
Nice and slow, watch you roll, you know how I like it Some girls dance with women, knowin' that it gives them
attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go Might have to peel me off the ceiling
I'm like a soda that's been shaken up, boom
I find the playfulness appealing
That cat and mouse chase, on your mark, get ready, go Send you a drink, see what the deal is
Held up your glass and blew a kiss and took a sip
When you were finished, back to business
You and your girlfriends group up, this is how you draw them in Baby girl, you keep lookin' at me, move your
body, so sexy
Nice and slow, watch you roll, you know how I like it
Baby girl, 'cause you know you got me, move your body, so sexy
Nice and slow, watch you roll, you know how I like it Some girls dance with women, knowin' that it gives them
attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go Some girls dance with women, knowin' that it gives
them attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go Step right up and spin the wheel, all charged up on

what you feel
Make an approach tryin' to keep it real, what's your name, girl?
Try your luck and spin the wheel, all charged up on what you feel
Make an approach tryin' to keep it real, I wanna take you home
Some girls dance with women, knowin' that it
gives them attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go
Some girls dance with women, knowin' that it gives
them attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go
Some girls dance with women, knowin' that it gives
them attention
I wanna get in with them, so pass me a drink and let's roll
Some girls dance with women, knowin' that it gives them attention
I wanna get in with them, so pass me a drink and let's go
