

Sunny Days

Faith Evans

You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one I remember when I used to be afraid
To love again but now I realize
That you're the one who brings the sun
You turn You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one Something real I can feel
I was searching for, I didn't wanna hurt no more
Then you came, made a change
Since you came and made it right
I can love you all my days You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one Can you tell me where would I be?
What would I do if I hadn't found you?
Though I've been in love before
You can be compared to none
'Cause you really bring the sun You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one I always try to hide
The way that I feel but I can't lie
That you're the one for me
You bring me ecstasy You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one You turn the rain into sunny days
You take the clouds away, baby you're the one
I feel like heaven's a step away
He sent an angel my way, baby you're the one Sunshine in my life
No more stormy days
Sunshine in my life
No more stormy days
Sunshine in my life
No more stormy days
