Better Man

Lake Stovall

You, you are so damn original
Down to earth oh baby I should get to know you
Go for lunch or dinner date or even bowling
Baby you
You always make me wanna be a gentleman
Take my jacket it's cold outside or hold my hand
Baby for you
I would be a better man
Better man
You, you don't know about the way I feel
For you
But I want you to know
That I would be a
Better man
I would be the one
Just to call and celebrate
Just because
It's Wednesday
Even though, even though it's just another day
Feels so good to say
Feels so good to say
Baby

Every star
Every moon
Can be yours
Very soon
If you wanted that
And that's if you love me back
And I'll be a better man

Baby you, you don't know about the way I feel
For you
But I want you to know
That I will be a better man
Better man
Better man (ohh)

Better man

Repeat 2x
I will show you the world

In the palms of my hand
In the palms of my hand
Ohhhh
I will show you the world
In the palms of my hand
In the palms of my hand
Ohhh

I will be a better man
