

# Pick Up The Phone

**F.R. David**

Said goodbye when I left  
To your answering machine  
Then you jumped in a plane  
Girl, you know what I mean Pick up the phone, oh yeah  
Pick up the phone, oh please  
I need your voice again  
Hearing your voice again Waiting so many years  
Feeling closer to you  
Not a sign, not a trace  
Baby, what can I do? Pick up the phone, oh yeah  
Pick up the phone, oh please  
I need your voice again  
Hearing your voice again Pick up the phone, let me know  
I don't want to lose you, girl  
Don't hang up, get in touch  
Fill the shadow in my life  
What you're doing now Intercommunication via satellite  
You can call me long distance  
Whatever you like Pick up the phone, oh yeah  
Pick up the phone, oh please  
I need your voice again  
Hearing your voice again Pick up the phone, let me know  
I don't want to lose you, girl  
Don't hang up, get in touch  
Fill the shadow in my life What you're doing now  
Can't we straighten it out?  
Won't you speak your heart? What you're doing now  
Can't we straighten it out?  
Won't you speak your heart? Won't you speak your heart  
Can't we straighten it out?  
What you're doing now
