

# Overdrive

## Foo Fighters

Coming down I'm coming round  
this time I think I'm waking up  
Give me loud to drown it out  
before the world starts breaking up  
You change and then you change again  
Turning like a wheel inside your head

Yours and mine and left and right  
there's still two sides to everyone  
You and I get on with life  
and pray we'll find a better one  
You change and then you change again  
Turning like a wheel inside your head

Overdrive we're going life or death  
Overdrive we're going life or death  
Overdrive we're going life or death  
Two strangers on the mend

Hurry now we're getting out  
this time there's nothing stopping us  
Leave behind this vacant town  
tonight and let it turn to rust  
You change and then you change again  
Turning like a wheel inside your head

Overdrive we're going life or death  
Overdrive we're going life or death  
Overdrive we're going life or death  
Two strangers, no relation, on the mend

You change and then you change again  
Turning like a wheel inside your head

Coming down I'm coming round  
this time I think I'm waking up  
Give me loud to drown it out  
before the world starts breaking up  
You change and then you change again

Turning like a wheel inside your head

Overdrive we're going life or death

Overdrive we're going life or death

Overdrive we're going life or death

Two strangers on the mend

Overdrive we're going life or death (overdrive we're going life or death)

Overdrive we're going life or death (overdrive we're going life or death)

Overdrive we're going life or death

Two strangers, no relation

Two strangers, no relation, on the mend
