

# Monopoly

## Urge Overkill

We're given life to live in  
And we're never gonna live it again  
Gotta lead it like a dog on a leash, yeah  
But my dragon kinda is wearing thin  
Rolling dice with God as our witness  
Down avenues, utilities and towns  
It's survival of the richest  
Moving our sinful pieces 'round and 'round  
It's you and me on the Monopoly board  
You land on the block where I got three hotels  
But it's not like you want me to win  
It was your face that placed the blame on you  
And your kiss that turned to brown  
Your face that placed the blame on you  
And your face that turned me down  
But when the night is over  
And you need a friend  
Shame on you  
You're your own Monopoly  
Death is always annoying  
But then nothing here is meant to last  
We're spending too much time on life's preparations  
Haven't we lived and died before in the past?  
I know we have  
Now it's you and me on the Monopoly board  
You land on the block where I got three hotels  
Now you cheated before 'cause you know you're gonna win  
And you do it again  
It was your face that placed the blame on you  
And your kiss that turned to brown  
Your face that placed the blame on you  
And your face that turned me down  
But when the night is over  
And you need a friend  
Shame on you  
You're your own Monopoly  
'Cause when the night is over  
And you need a friend  
Shame on you

You're your own Monopoly  
Yes, you know you are  
Your own Monopoly  
Yes, you know you are  
Oh Monopoly  
Monopoly
