

# Tomorrow (A Better You, Better Me)

Quincy Jones

I hope tomorrow will bring better you, better me  
I know that we'll show this world we got more we could be  
So you should never give up on your hopes and your dreams  
You gotta get up, get out, get into it, get it on to be strong If we try we can fly to a whole another place  
All we need is relief and a smile on our face  
We can go anywhere we want, any road we decide to take  
And were never, never, never too far from tomorrow, today If tomorrow is light in a place where there's no home  
Then know that now is the time to have faith in us all  
You know we're all in this world and we all can belong  
We gotta get up, get out, get over it, get it on to be strong If we try we can fly to a place in the sun  
All we need is precious dreams and a friend we can trust  
We can go anywhere we want, any road we can take  
And were never too far from tomorrow, today Everybody say tomorrow is just for us to share  
And were gonna send our message of love out everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last and last Cause we're never far away, never  
One thing I can always be sure of  
Far away, no never  
The promise of today If we try we can fly to a whole another place  
All we need is relief and a smile on our face  
We can go anywhere we want, any road we decide to take  
And were never, never, never too far from tomorrow, today Everybody say tomorrow is just for us to share  
And were gonna send our message of love out everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last and last Everybody say tomorrow is just for us to share  
And were gonna send our message of love out everywhere  
There's a promise of love tomorrow has  
Something special and it's something we know will last and last Cause we're never far away, never  
One thing I can always be sure of  
Far away, no never  
The promise of today
