

# Higher (Lakechild Remix)

[Cajsa Siik](#)

Verse 1:

What if a dream could tell me how  
What if a minute was forever  
Now I am climbing out of my mind  
Now I can sense you even better

Chorus 1:

Crystals in an open sky  
Lose you left to figure out

Higher

I can feel it coming down  
It all makes sense when you're around

Higher

Verse 2:

I was floating on my back  
Can you see what I see  
Nothing is holding us back  
Can you feel what I feel

Chorus 2:

Once upon a time you see  
Someone told you how to be

Higher

No one told us to forget  
We may love without regret  
Higher That's my whole truth

(X8) Chorus 1:

Crystals in an open sky  
Lose you left to figure out

Higher

I can feel it coming down  
It all makes sense when you're around

Higher

Chorus 2:

Once upon a time you see  
Someone told you how to be

Higher

No one told us to forget  
We may love without regret

Higher

Verse 1:

What if a dream could tell me how  
What if a minute was forever  
Now I am climbing out of my mind  
Now I can sense you even better
