

Together Again

[Ray Charles](#)

Together again
My tears have stopped fallin'
The long lonely nights
Are now at an endThe key to my heart
You hold in your hand
And nothing else matters
We're together againTogether again
The gray skies are gone
You're back in my arms
Now where you belongThe love that we knew
Is living again
And nothing else matters, baby
We're together againWell, nothing else matters, baby
We're together again
