

# Smoke + Mirrors

Jarell Perry

It's easy to love when it's all for a lie  
Over and again!  
Truth at the window I hope that it flies  
Far from where we stand  
I don't know your destination  
But I'll take you there!  
And nobody has to know  
Just promise me you won't  
Tell me how much you can, cause  
My life inside your life  
It can't be natural!  
You're so high, all night  
Smoke and mirrors, yeah  
Smoke and mirrors!  
Where you go, oh, oh  
Sponsored links  
Where you go?  
It's better to love when no one has to hide  
Over and again!  
Something it's better left here for the night  
And we both understand  
I don't know your destination  
But I'll take you there!  
And nobody has to know  
Just promise me you won't  
Tell me how much you can, cause  
My life inside your life  
It can't be natural!  
You're so high, all night  
Smoke and mirrors, yeah  
Smoke and mirrors!  
Where you go, oh, oh  
Where you go?  
It can't be natural baby  
Just an illusion  
And I'll never know the way we do it  
You are my real lady  
So don't give anything away, give anything away! My life inside your life  
It can't be natural!

You're so high, all night  
Smoke and mirrors, yeah  
Smoke and mirrors!  
Where you go, oh, oh  
Where you go?
