## Amavasya

Life has put me at an impasse  
And I know ahead there comes a fork in the road  
But where do I go  
Where do I go

Hitting a wall or taking a fall  
What the fucks it worth  
What the fuck is it worth

Sometimes I wonder if life could take me under  
Sometimes I wonder if life could take me under  
I feel the pressure of the world  
Closing around me  
With blood so cold, the heartbeat slows.

I wonder if life could take me under like an avalanche.

Trapped beneath the surface of an avalanche.

Trapped beneath the surface of an avalanche.

I got a grip when I learned to let..  
I got a grip when I learned to let..  
I got a grip when I learned to let..  
I got a grip when I learned to let..  
Go

I got a grip when I learned to let go.
