

Tower Hill

Clannad

Looking around and around again
That's mean, oh that's mean
Far away on my own again
At gagans rye(?) and tower hillSilence sweet
Is there someone out there too?Lies on on the twilight
It's me, you're home
Blue and grey, in season art
Another night at tower hillSilence sweet
Is there someone out there too?Silence sweet
Silence sweet
Is there someone out there too?Stay in line and count to ten
Still here, right here
Moving round the center
I'm sorry now, at tower hillSilence sweet
Is there someone out there too?
