

# Reborn

## Drowning Pool

Hands raised full of sin  
This is where the story began  
As my halo  
I'm scarred by where I've been  
This ain't over, till it's over  
This ain't over, till it's over, yeah  
The hell I've been through  
I saw my face in the bottom of a bottle  
The hell I've gone through  
To be reborn, reborn, again  
The hell I've been through  
Shot down, ran through, dragged through  
The hell I've gone through  
To be reborn, reborn, again, again  
Tear away, redefine  
Bring me down, this life  
Take what's wrong and make it right  
Crucified every time I tried  
This ain't over, roll me over  
This ain't over, till it's, till it's over  
The hell I've been through  
I saw my face in the bottom of a bottle  
  
The hell I've gone through  
To be reborn, reborn, again  
The hell I've been through  
Shot down, ran through, dragged through  
The hell I've gone through  
To be reborn, reborn, again  
This love, hate, this game  
Don't want to remember  
Made numb, mute, unreal  
I can't forget, I can't forget  
No, I won't, I can't forget  
Yeah, good goddamn  
The hell I've been through  
I saw my face in the bottom of a bottle  
The hell I've gone through  
To be reborn, reborn, again

The hell I've been through  
Shot down, ran through, dragged through  
The hell I've gone through  
To be reborn, reborn, again  
Reborn, reborn, I'm reborn again  
I won't forget, no
