

# Hollow People

## Blaudzun

Tonight, tonight we are the hollow  
The hollow people from the bricks  
The lights we keep it shallow  
And you know it  
And you need it The lights, the lights like this just swallow  
We laugh and breathe your dirty tricks  
The times, these times erase tomorrow  
And you want it  
And you need it Watch your mouth now the kids are around  
Kids are around (x4) Watch your mouth, the kids around(x2)
