

# Stop To Think

## Unwritten Law

I've got this feelin'  
And I know that somethin' just ain't right  
There's something wrong with me  
Can't eat can't think can't sleep at night  
Maybe the empire's falling down  
I hope that I won't be around  
Stop to think I've tried to fight I think I'm right  
But who the fuck's to say  
I've heard your views on the evening news  
They're played out every fucking day  
I think the end is coming down  
I ope that I won't be around  
Stop to think I stop to think that maybe everything's alright  
And maybe that's a waste of time  
Be all that you can be  
There's nothing left to see  
Well now  
That's not good enough for me  
Stop to think
