

Taxi

Jamelia

Too much looking with your eyes
Jets steaming from all sides
My heart is jumping, I can't control it, aah ooh
Get me talking from my mind
Boo creeping up behind
Think I may want to split this crazy scene I know a place, a cozy place, a killer bed
I know directions, will you let me take the lead
And I got the cash in my handbag, let me pay
(Taxi, taxi) We can party back at mine now, baby
(Taxi, taxi)
Smoke kaboosh and drink some wine now, baby
(Taxi, taxi)
Get your coat you've pulled tonight, baby
(Taxi, taxi)
Follow me, follow me 'cos I, I, I know the way, boy It's too late to stay, I'm all restless
Don't you wanna see under my dress
I cooked the best breakfast in bed
Ooh, get me coming onto you now
Can't help it's what you do to me
Why can't we split this crazy scene? I know a place, a cozy place, a killer bed
I know directions, will you let me take the lead
And I got the cash in my handbag, let me pay
(Taxi, taxi) We can party back at mine now, baby
(Taxi, taxi)
Smoke kaboosh and drink some wine now, baby
(Taxi, taxi)
Get your coat you've pulled tonight, baby
(Taxi, taxi)
Follow me, follow me 'cos I, I, uh, I know the way, boy
Uh, I know the way, boy No point roaming around
I've got one thing on my mind
Don't wanna stop for food
I can feed your appetite
I got everything you want
Everything you need
Cabbie on the accelerator, give it speed Ooh yeah, like it like that
I like it like that
One way, my way, never going back
I know the back roads, it won't take long

Get your coat, we're going home We can party back at mine now, baby

(Taxi, taxi)

Smoke kaboosh and drink some wine now, baby

(Taxi, taxi)

Get your coat you've pulled tonight, baby

(Taxi, taxi)

Follow me, follow me 'cos I, I, uh, I know the way, boy

I know the way, boy

Yeah, I know the way, boy
